YOUSOF WAKILI

Software Engineer
San Francisco, CA | 510-449-1178 | ywakili18@gmail.com
Portfolio: youseffect.com | **Github**: github.com/ywakili18 | **LinkedIn**: linkedin.com/in/youseffect

SKILLSET

Technologies: HTML5, CSS3, JavaScript, React, Redux, Tailwindcss, Framer, Responsive Design, Node.js, Express.js, PostgreSQL, MongoDB, Git/Github, JWT, Agile Development, REST architecture

FEATURED PROJECTS *(Projects can be viewed via Github Repo or Portfolio)*

TRAKFLOW
- PostgreSQL, Express.js, React, and Node.js bug tracker single page application (SPA).
- Features JWT login authentication, creating new tickets that are tracked in a current "flow" by managing state with React hooks.
- Users are able to create new tickets, add comments, update, and delete tickets (CRUD actions) from a REST API.
- Responsive design utilizing Tailwindcss as UI library.

DVLPR.
- PERN stack social media clone single page application (SPA).
- Features login authentication and RESTful api utilizing Express.js, Node.js w/sequelize, and PostgreSQL.
- Front-End utilizes Tailwindcss as UI library and React w/Redux for state management.
- Dvlpr was built with 3 fellow engineers using Github for version control.

POKEMON GOLD MINI
- Developed a front-end JavaScript web application with HTML and CSS that is hosted on Surge.
- Users are able to pick between two game characters to battle and determine a winner through JavaScript core ideas: functional programming, object oriented programming (OOP), arrays, loops, and conditionals.

SELECTIVE EXPERIENCE *(Full employment history can be seen on LinkedIn)*

General Assembly
Software Engineering Fellow   *07/2021- present*
- Developed four interactive web applications after hands-on training of software engineer and full-stack web development.
- Built a web page application game with HTML, CSS, and JavaScript.
- Created a full-stack SPA collaboration project with co-developers on a social media clone built with React.js as JavaScript library. RESTful API built with PostgreSQL, Express.js, and Node.js for back end.
- Worked in a collaborative environment utilizing Git/Github for version control, spearheading development of the project as Git Boss.
- Utilizing Vue.js, Python with Flask as framework, participated in a 2 day hack-a-thon creating a SPA application with full CRUD actions.

AT&T
Account Executive   *01/2021-07/2021*
- Ranked #1 in total net postpaid activation for Q2 by daily follow up with leads, providing white glove service, and solutions based on client needs.
- Led and participated in daily stand ups discussing key metrics to improve on, creating new business solutions for AT&T clients and implementing out in the sales field.

T-Mobile
Sales Manager   *01/2015-12/2019*
- Managed and developed team of 10-15 employees in high foot traffic store driving postpaid activations, mobile internet solutions, and accessory sales.
- Utilizing Salesforce as a CRM tool, generated 20 daily leads resulting in 10% increase in foot traffic and a 50% increase in total gross postpaid activations.

EDUCATION

San Jose City College *2014-2017*
Key Courses: CIS 084 Java Programming, CIS 055 Data Structures, Math 80 Discrete Structures
